Straight baths remain the most popular option for UK homes. They fit neatly against a wall, making them ideal for bathrooms of all sizes while providing excellent value for money.

Corner Baths

Corner baths maximise unused space and offer a stylish alternative to standard rectangular tubs. They're perfect for family bathrooms where efficient use of space matters.

Back to Wall Baths

Back to wall baths combine the elegance of freestanding designs with the practicality of wall-mounted installation, making cleaning and plumbing simpler.

Shower Baths

Shower baths provide the best of both worlds, allowing you to enjoy a relaxing soak or a refreshing shower in one practical solution.

Choosing the Right Bath Size

Before ordering online, carefully measure your available space. Consider:

Most UK baths range from 1500mm to 1800mm in length, allowing homeowners to find a suitable option for almost any bathroom.
